WORK EXPERIENCE

Information Security Analyst

Raechal Enterprises Pvt. Ltd. / Kathmandu / July, 2025 - Present

- Hands-on experience with Vulnerability Assessment tools including Rapid7 InsightVM, OpenVAS, and Nessus for scanning, risk analysis, and remediation tracking.
- Skilled in using CrowdStrike Falcon, ManageEngine, Motadata ITSM (ServiceOps), and PDQ (Deploy & Inventory) for endpoint protection, log monitoring, patch management, and system administration.
- Performed secure remote access and support using Splashtop, along with network/security configuration and troubleshooting across enterprise environments.

Associate Information Security Analyst

Raechal Enterprises Pvt. Ltd. / Kathmandu / February, 2025 - July, 2025

- Assisted in vulnerability assessment & management using Rapid7, OpenVAS, Nmap, and contributed to VAPT reporting.
- Supported network configuration and troubleshooting, including router/switch setup, IP addressing, connectivity, and on-site system inspections.
- Deploy and monitor CrowdStrike Falcon Sensor and performed remote software deployment using PDQ Deploy across client systems.
